Chairman's Report

Dear Shareholder,

With the grace and mercy of Allah, and on behalf of the Board of Directors of Al Jazeera Steel Products Co. SAOG, I would like to welcome you to the 16th Annual General Meeting of the company to present the Annual Report, Audited Financial Statements and Auditors Report for the year ended 31 December 2013.

Key points of 2013 Operational Performance

The overall demand during the year 2013 was quite positive and the price volatility of HRC and Billets were moderate which helped the company to achieve a growth of 33% in the net profits compared to the same corresponding period of last year. This was achieved mainly due to the increased demand on one side, and the efficient planning of raw material purchasing by the management from another side. Unlike in the previous years, this year both prices of raw materials and consumers' demand were relatively stable in the second half. Moderate growth was witnessed in most of the emerging markets and developing economies. The management was able to capitalize on these positive trends and achieve the record profit in 2013. Management's cost optimization initiatives accompanied with the effective monitoring and timely selection of raw material buying in pursuit of higher profits have ultimately paid off. Diversification of raw material suppliers has helped the company reduce concentration risk and control inventory holdings, while with better negotiations with banks a significant saving on interest and financing cost was possible.

As can be seen in the table below, we were able to achieve significant growth in net profits in 2013 compared to 2012 albeit the drop in production and sales tonnages. The drop in revenue can be attributed mainly to the reduction in raw materials cost by about 10%, which ultimately gets reflected in the sales price that is charged.

Particulars	31 December 2013	31 December 2012	Growth %
Production – MT	286,111	294,875	(3%)
Sales – MT	290,899	295,550	(2%)
Sales – RO	88,370,890	98,314,618	(10%)
Profit / (Loss)(in RO)	4,553,033	3,418,137	33%

Future plans

With the awarding of 2020 World Expo to Dubai and the 2022 FIFA World Cup in Qatar, we expect more spending in infrastructure by these governments. With the Oil prices steady, we expect more spending in infrastructure by the GCC governments from the budget surpluses in 2014. This will definitely create more opportunities and we expect the consumption of steel by all countries in the GCC to improve.

By mid-2014, the rebar making facility at the company will be ready. With this additional facility, the Merchant Bar Mill will be operating on 24 hours basis. We expect that we will be able to produce and sell additional 4,000-5,000 MT of rebar on a monthly basis. The extra production will lead to over 60% capacity utilization from the present level of 38% only.

In 2013, the combined effects of the dumping issue with the US and Canada in the first half and the aggressive selling by Korean companies have led to a slump in our sales to North America. However, in the second half we have widened our customer base and strengthened our sales to the US and were able to achieve better results than the corresponding period of the previous year. Efforts are still ongoing in order to expand our geographical sales coverage.

On the cost optimization front, we are closely monitoring the developments relating to minimum wages and energy subsidies in the private sector in the Sultanate. The company has been taking necessary precautions to keep costs under control. With regular investment in automation and training, the company should be able to keep a control on operating costs.

Dividends:

The Board of Directors is pleased to recommend a cash dividend of 20% amounting to Bz 20 for the year 2013 for every share held. The following table shows the dividend distributed during the past 5 years.

Year	Cash Dividend	Stock Dividend (Bonus Share)
2012	16%	-
2011	15%	-
2010	9%	-
2009	-	-
2008	7%	-

Internal Control Systems and their adequacy

The company has proper and adequate systems of internal controls required to ensure that all assets are safeguarded and protected against unauthorized use or disposition and that all transactions are authorized and reported correctly. The internal control system is supplemented by an extensive program of internal audits, review by management, documented policies, guidance and procedures. The internal control system is designed to ensure that all data is reliable for preparing and maintaining financial statements.

The company has an audit committee comprising of non-executive directors to review the audit work which in turn is reviewed by the Board. The Board has retained PricewaterhouseCoopers as its internal auditor.

The greatest strength of your company is the quality and spirit of its people. . In addition, it enjoys a good reputation in the market for its quality and dependability, and all these elements contribute positively to its future prosperity.

M/S. Ernst & Young, the company's Auditors have audited the accounts up to 31 December 2013, and their report is enclosed.

Finally, on behalf of the company and the Board of Directors, I would like to express my heartfelt gratitude to His Majesty Sultan Qaboos Bin Said for the encouragement and support given by his Government for the industrial development in the Sultanate of Oman.

At this juncture, on behalf of the Board, I would like to thank MSM, bankers, suppliers, customers and all the shareholders for their support and cooperation, which in turn reflects the confidence placed in us. I would also like to express our sincere appreciation to the management and employees for their efforts towards achieving these results.

On Behalf of the Board

Sulaiman Mohammed Shaheen Al-Rubaie
Chairman
23 February 2014

MANAGEMENT DISCUSSION AND ANALYSIS

The Management of Al Jazeera Steel Products Co. SAOG is pleased to present the Management Discussion and Analysis Report for the year ended 31st December, 2013.

Global Economic Environment

2013 has been an exceptional year as the price fall of the Billets and HRC was arrested in July after which prices were more or less steady or with slight increase. In the past 3 years, the price drop was rolled over to the later months of the year with price steadiness occurring only towards the end of the year. We thus had a very reasonable second half and made good profits as against marginal profits in the previous years.

Industry Structure and Company Development

The demand for steel in the GCC was almost stable in 2013, unlike the previous years. The first half of 2013 witnessed some increase in steel prices on the back of strong demand in Q1, higher iron ore and scrap prices and the improved activity in the construction sector. Due to the stability of steel prices as well as demand in the second half of 2013, coupled with improved efficiency and better inventory management, we were able to achieve a record profit in 2013.

The global steel industry in 2014 is expected to see similar recovery as that of 2013 led by a positive growth in Europe and the developed world which will hopefully offset any slowdown in the Chinese and the developing world. World production of steel is predicted to rise by over 3% in 2014.

The over 2% year-on-year increase in output in Europe, following six years of decline, will partly compensate the slowdown in China as the world's biggest steel producer, moving from an investment to a services-driven economy. Chinese steel production is expected to rise year-on-year by just 4% as compared to 6% in 2013.

World Steel Association forecasts that growth for Chinese steel consumption will drop below the rest of the world for the first time since 2006. The industry body however predicts that the world steel demand excluding China to rise by 3.5% year on year, surpassing the expected growth of only 3% for China. Overall, global growth last year was 3.1%. However it is anticipated that the prices will be under pressure and sales values will be lower.

In 2014, steel use in the U.S. is projected to rise 3% fuelled by the improving global economy and the automotive, energy and residential construction sectors. Central and South America is expected to grow by 5% in 2014 of which Brazil is expected to grow by 3.8% in 2014.

Steel demand in the GCC region is rising, backed by construction activities and growth in investments. Governments in the GCC region are actively spending money for significant infrastructure development, with the oil price staying over \$100. GDP growth is expected to be around 4% for 2014.

Al Jazeera Steel witnessed robust sales since inception. The company, sensing the growth potential in the steel market, has responded positively over the period by capacity expansion and wider reach. Management of Al Jazeera has been successful in cautiously managing inventory levels taking corrective actions, when necessary, to counter the sensitivity and vulnerability of raw material pricing in light of the current global market scenario. This was effectively achieved through maintaining well-calculated economical inventory levels as means of avoiding speculative piling of HRC and billets. Management was also able to improve its supply chain, implement more sourcing diversification, and strengthen its customer relationships.

Al Jazeera controlled production levels for the Tube Mill products during the current year to balance the challenges from the US market. In the case of Merchant Bar Mill (MBM), management is in the process of exploring new products and value addition like galvanizing. The mill has already reached the hourly rated production capacity for several sections. Total capacity utilization was 38% in 2013, which is expected to increase to 50% during 2014 with the commissioning of rebar mill by the mid of 2014 and running on a 2-shift. We will be able to achieve this only with the hard work of all employees at the plant with significant support from the marketing team.

Future Outlook

With the awarding of 2020 World expo to Dubai, the ongoing projects for the FIFA World Cup in Qatar and the investment plans in infrastructure in the Middle East, we expect the demand for the company products to be healthy. We also hope new demand to emerge from Iraq and Africa.

Analysis of Segments and Product-wise Performance

The company sells four different types of steel products. The product wise performance is given below:

Sales Quantity in MT

Particulars	2013	2012	Growth %
Black pipes	74,407	67,926	10%
Galvanized pipes	76,654	82,844	(7%)
Hollow Sections	28,549	31,288	(9%)
Merchant Bar Mill Products	111,289	113,492	(2%)
Total	290,899	295,550	(2%)

Financial Review

The financial performance of the company in 2013 as compared to that of 2012 is given below:

(Amount in OMR)

Particulars	2013	2012	Growth %
Sales	88,370,890	98,314,618	(10%)
Gross Profit	11,756,091	11,335,776	4%
Finance Cost – Net	(1,043,679)	(1,258,281)	17%
Administration Cost	(6,159,379)	(6,659,358)	8%
Net Profit	4,553,033	3,418,137	33%
Earnings Per Share	0.036	0.027	33%

Operational Review

The company maintained an average monthly sale of 24,600 MT in 2012, while it was marginally lower at 24,200 MT in 2013. Sales value has decreased from OMR 98.3 million in 2012 to OMR 88.4 million in the year 2013. The decrease in sales value is mainly due to lower raw material prices and lesser exports to North America.

The Tube Mill division currently has a production capacity of 300,000 MT of pipes, which includes 80,000 MT of galvanized products per annum. During the year, the company was able to maintain the same capacity utilization percentage of 60% compared to the previous corresponding period. The Tube Mill division produced and sold 179,610 MT in 2013 compared to 182,058 MT in the previous year. The drop in tonnages was mainly on account of the tonnages lost in the US market. The company has focused its product mix to meet the high standards of customer requirements.

In our MBM division, we were able to sell 111,289 MT of products. The demand for our Merchant Bar Products had not picked up the way we expected and we kept producing with 12 hours operation. The rebar mill will be ready for production by mid of 2014 and with this modification; the management is expecting to improve the capacity utilization.

Human Resources and Omanisation

Our total employee strength is 600. One of the ways in which the company improves its competence in the present market is through employee training and personal development. Our trained and skilled workforce, along with their hard work, has contributed towards the enhancement of productivity and sales. We are proud to have 36% Omanisation.

Health & Safety

The company considers the health and safety of its employees to be of the utmost importance. Adequate safety measures have been implemented at the plants of the company for the prevention of accidents.

The company has its own clinic with facilities to provide basic medical assistance to the employees. The clinic employs a full time male nurse and a doctor is available every day on a part time basis.

The company has also obtained group medical policy for its employees and eligible dependents from a reputed insurance company in Oman. Furthermore, the company also has group life policy for all its employees.

Corporate Social Responsibility

The company sees Corporate Social Responsibility as an important element of any corporate development. The company sees itself as part of the wider Sohar and Omani society.

The company promotes environmental protection by pollution-control initiatives, such as installing a waste water treatment plant and a neutralization plant.

We actively support the underprivileged in the areas of medical treatment, employability and education. During the year, the staff donated their half day's salary and an equal amount has been donated from the company for the underprivileged and differently abled persons.

In addition, the company sponsored events that support the promotion of various arts, cultural forums and sports.

Report of Factual Findings on the corporate governance reporting of Al Jazeera Steel Products Company SAOG and its application of the corporate governance practices in accordance with the CMA code of corporate governance

TO THE SHAREHOLDERS OF AL JAZEERA STEEL PRODUCTS COMPANY SAOG

We have performed the procedures prescribed in Capital Market Authority (CMA) circular no. 16/2003, dated 29 December 2003 with respect to the accompanying corporate governance report of Al Jazeera Steel Products Company SAOG (the company) and its application of corporate governance practices in accordance with the CMA's Code of Corporate Governance issued under circular no. 11/2002 dated 3 June 2002 and the CMA Rules and Guidelines on disclosure, issued under CMA administrative decision 5, dated 27 June 2007. Our engagement was undertaken in accordance with the International Standard on Related Services applicable to agreed-upon procedures engagements. The procedures were performed solely to assist you in evaluating the extent of the company's compliance with the code as issued by the CMA.

We report our findings below:

We found that the company's corporate governance report fairly reflects the company's application of the provisions of the code and is free from any material misrepresentation.

Because the above procedures do not constitute either an audit or a review made in accordance with International Standards on Auditing or International standards on Review Engagements, we do not express any assurance on the company's corporate governance report.

Had we performed additional procedures or had we performed an audit or review of the corporate governance report in accordance with International Standards on Auditing or International Standards on Review Engagements, other matters might have come to our attention that would have been reported to you.

Our report is solely for the purpose set forth in the first paragraph of this report and for your information and is not to be used for any other purpose. This report relates only to the accompanying corporate governance report of Al Jazeera Steel Products Company SAOG to be included in its annual report for the year ended 31 December 2013 and does not extend to any financial statements of Al Jazeera Steel Products Company SAOG, taken as a whole.

23 February 2014
Muscat

Corporate Governance Report

Pursuant to Capital Market Authority (CMA) circular dated 3 June 2002 and subsequent amendments, the Board has adopted a set of Governance policies that cover its relationship with the shareholders and the conduct by the Board of its own affairs.

(A) Company's philosophy on Code of Corporate Governance

Al Jazeera Steel Products Co SAOG (Jazeera) believes that for a company to succeed on a sustainable basis, it must maintain high standards of corporate governance towards its employees, consumers and society. Al Jazeera has always focused on good corporate governance, which is a key driver of sustainable growth and profitability in the long-term and value addition for our shareholders.

In this report, Al Jazeera Steel Products Co SAOG confirms its compliance with the Code as required by Article 26.

(B) BOARD OF DIRECTORS

d. Information supplied to the board

Among others, this includes:

- Capital and operating budgets and quarterly updates
- Quarterly results of the Company before submission to MSM / CMA
- Monthly Management Reports
- Minutes of the Audit and Other Committees
- Information of recruitment, resignation and removal of senior executives along with the updated organization chart
- Legal cases which are material
- Serious accidents, dangerous occurrences and pollution problems, if any
- Material default in financial obligations to or by the Company
- Issues involving public or product liability claims of significance
- Joint Venture proposals and agreements
- Transactions involving payment towards intellectual property/goodwill/brand equity
- Any significant industrial relations problem including new wage agreements
- Sale of investments, assets and divisions which are not in the normal course of business
- Non-compliance with any regulatory requirement
- Details of any foreign exchange exposure and steps taken to hedge the risk

The Board of Al Jazeera Steel Products Co. SAOG is routinely presented with all the above information and whenever applicable and are materially significant. These are submitted either as part of the agenda well in advance of the board meetings or are being tabled during the course of the board meetings.

e. Directors with materially significant related party transactions, pecuniary or business relationship with the company

During the year, there were no materially significant related party transactions of pecuniary nature between Al Jazeera Steel Products Co SAOG and its directors who may have potential conflict with the interests of the Company at large. The normal contracts and transactions in ordinary course of business are decided at arms length basis based on competitive quotes and on transparent mode of tendering.

f. Remuneration of Directors:

All directors are eligible for sitting fees of OMR 250 for every board meeting attended during the year. The Company will also pay OMR 175 to the directors towards sitting fees for every audit committee and the remuneration committee meeting attended during the year.

An amount of OMR 40,500 was paid during the year as Director Remuneration for the year 31st December 2012.

Director remuneration payable as per CMA regulation and subject to the approval of Shareholders in the forth coming Annual General Meeting amounting to OMR 42,000 for 3 directors for the year 31st December 2013.

Sitting fees payable to individual directors for the year (in OMR) are as set below:

Name of the Director	Board Meetings	Audit Committee	Remuneration Committee	Total – OMR
Mr. Sulaiman M. Al-Rubaie	1,000	-	175	1,175
Mr. Rajeev Kulkarni	1,000	525	175	1,700
Mr. Ghanem S. Al- Ghenaiman	500	-	-	500
Mr. Rajiv Nakani	1,250	-	-	1,250
Mr. Taki Ali Sultan	1,000	-	-	1,000
Mr. Sharad Deoraj Jain	1,250	700	-	1,950
Mr. Ahmad Khamis	1,250	700	-	1,950
Total	7,250	1,925	350	9,525

During the year, Mr. Sulaiman M. Al-Rubaie, Mr. Rajiv Nakani, Mr. Ahmad Khamis and Mr. Sharad Jain have not claimed Board sitting fees and Directors remuneration; Mr. Ahmad Khamis & Mr. Sharad Jain have not claimed Audit Committee Sitting Fees; Mr. Sulaiman M. Al-Rubaie has not claimed Remuneration Committee Sitting Fees;

g. Process of nomination of the Directors

The Company adheres to the process as has been laid down in the Commercial Companies Law and by the Capital Market Authority in conjunction with the Articles of Association of the Company, which stipulate that the nomination of the Directors is usually done through AGM.

h. Audit Committees

The Board has established an Audit Committee comprising of three independent members. In compliance with the requirements of Article 7 of the Code, two members of the Audit Committee are knowledgeable in finance, industry and laws / regulations governing SAOG companies.

i. Terms of Reference of the audit committee are as set below

- To recommend to the Board, name of the independent auditors to audit the financial statements of the Company.
- To evaluate the performance of the independent auditors and where appropriate, replace such auditors.
- To review the audited financial statements and discuss them with management and the independent auditors. Based on such review, the Committee shall make its recommendation to the Board as to the inclusion of the Company's audited financial statements in the Company's Annual Report.
- To monitor all reporting, accounting, control and the financial aspects of the executive management's activities.
- To investigate any activity within the Company.
- To seek information from any employee.
- To discuss with a representative of management the interim financial information contained in the Company's Quarterly Report prior to its filing (These discussions may be held with the Committee as a whole, with the Committee chair in person, or by telephone.)
- To oversee internal audit activities, including discussing with management and the internal auditors the internal audit function's organization, objectivity, responsibilities, plans, results, budget, and staffing.
- Discussing with management, the internal auditors, and the independent auditors the quality and adequacy of and compliance with the Company's internal controls and provide assurance to the Board of Directors regarding the adequacy of the internal control environment within the Company.
- Discussing with management and/or the Company's lawyer any legal matters (including the status of pending litigation) that may have a material impact on the Company's financial statements and any material reports or inquiries from regulatory or governmental agencies.

It may be clarified that the role of the Audit Committee includes matters specified under Annexure 3 of the Code of Corporate Governance for MSM listed companies issued by Circular no. 11 / 2002 dated 3 June 2002.

ii. Four Audit Committee meetings were held during the financial year ended 31 December 2013, the dates of the meeting and the member's attendance are as follows.

Name of the Director	Position	Audit Committee Meeting			
		17/02/13	28/04/13	28/07/13	29/10/13
Mr. Rajeev Kulkarni	Member	√	√	Ab	√
Mr. Sharad Deoraj Jain	Member	√	√	√	√
Mr. Ahmad Khamis	Member	√	√	√	√

√ : Present, Ab: Absent, ND: Not a Director

Total sitting fees payable to the audit committee members is OMR 1,925 for the year 2013.

i. Internal Control

The Audit Committee, on behalf of the Board regularly reviewed the internal control prevailing in the Company. The Company has an internal audit firm for reviewing and reporting on the various issues of the Company along with recommendations and Management comments thereupon. The audit committee reviews the internal auditor's reports on a regular basis. The Internal Controls prevailing in the Company are adequate. The Audit Committee has appointed a full time in house internal auditor from August 2011 onwards. However, the internal audit activities for the whole year were carried out by an Audit firm Price Waterhouse Coopers, Chartered Accountants, Muscat and the total Audit Fees paid / payable for the whole year 2013 was amounting to OMR 12,900.

(C) MANAGEMENT REMUNERATION

The remuneration package of the executives is made up of a fixed and a variable component. The fixed component includes a salary, valued perquisites and retirement benefits. The variable component is a performance-linked incentive, which is calculated based on pre determined parameters of performance.

During the year 2013, the total cost of the top 7 executives of the Company was OMR 345,735 (Salary & others OMR 333,110 Gratuity OMR 12,625).

The severance notice period of these executives is one month with end of service benefits payable as per the Omani Labour Law.

Employment Contract

Jazeera enters into a formal Contract of Employment with each employee and such contracts are in line with the regulation of Ministry of Manpower and Omani Labour Law.

(D) DETAILS OF NON-COMPLIANCE BY THE COMPANY

CMA has imposed penalty on the company in the year 2012 for delay in disclosing the information pertaining to antidumping and countervailing duties litigation in United States. Other than this, there were no penalties or strictures have been imposed by MSM/CMA or any other authorities on the company for any matters related to capital market during the last three years.

(E) MEANS OF COMMUNICATION WITH THE SHAREHOLDERS AND INVESTORS

Al Jazeera Steel Products Co S.A.O.G. has its own website at the URL www.jazeerasteel.com, which was built for our worldwide customers and partners. The website contains detailed specifications on the various product ranges manufactured, along with timely updates on all the vital information relating to the Company, yearly financial results, official press releases and presentation to analysts.

The quarterly/annual results were published in the local newspapers both in Arabic and English. Also, results were uploaded in the Muscat Security Market (MSM) website. The results were not sent individually to the shareholders in view of the above. Shareholders wishing to acquire a set of results can download from the MSM website or were advised to contact our offices directly.

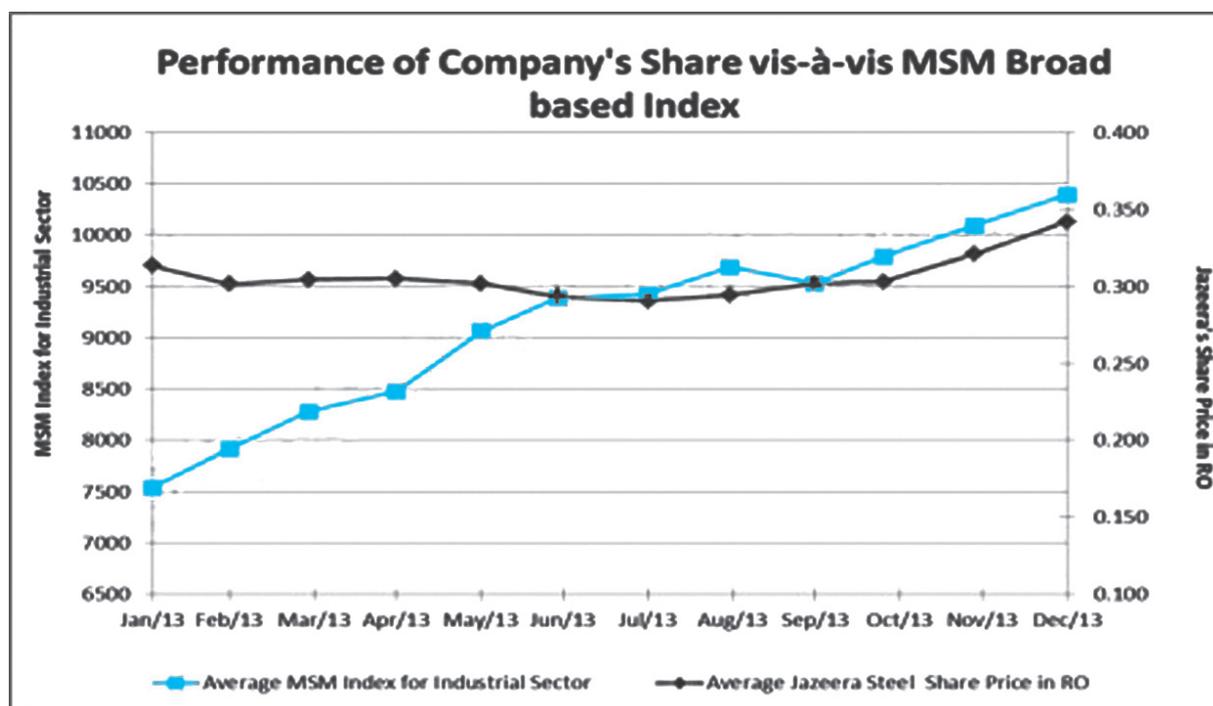

A copy of the Management Discussion and Analysis is circulated along with the financial statements.

(F) MARKET PRICE DATA

Market Price Data – High / Low during each month in the Year 2013.

Month	Company Share Price (Values in OMR)		MSM Index (Industrial)	
	High	Low	High	Low
January-2013	0.322	0.305	7,704	7,374
February-2013	0.310	0.293	8,196	7,633
March-2013	0.315	0.294	8,403	8,153
April-2013	0.316	0.294	8,807	8,145
May-2013	0.308	0.296	9,345	8,785
June-2013	0.304	0.283	9,577	9,196
July-2013	0.298	0.283	9,636	9,216
August-2013	0.305	0.284	9,864	9,512
September-2013	0.314	0.290	9,717	9,334
October-2013	0.316	0.290	9,910	9,669
November-2013	0.334	0.308	10,272	9,910
December-2013	0.354	0.330	10,520	10,265

Performance of the Company's share price in comparison to the broad based MSM Index of the Industrial sector in Oman during the year 2013 is illustrated in the below chart:

Distribution of shareholding

Distribution schedule of each class of equity security with number of holders and percentage in the following categories

Categories	No. of Shares	No. of Shareholders	% of Total Outstanding Shares
Less than 1%	28,410,291	883	22.75%
1% to less than 5%	25,656,180	10	20.54%
5% to less than 10%	7,133,529	1	5.71%
More than 10%	63,697,960	1	51.00%
Total	124,897,960	895	100.00%

The shareholding pattern more than 5% as on 31st December 2013 was:

Name of the Shareholders	Total Shares	% of Share Capital
Global Buyout Fund LP	63,697,960	51.00%
State General Reserve	7,133,529	5.71%
Total	70,831,489	56.71%

The Company does not have any GDRs, ADRs, warrants or any convertible instruments as of 31 December 2013 and hence the likely impact on equity is NIL.

(G) PROFESSIONAL PROFILE OF THE STATUTORY AUDITOR

Ernst & Young are the statutory auditors of the Company. EY have been operating in the Sultanate of Oman since 1974 and are the largest professional services firm in the country. EY Oman, forms part of EY's EMEIA practice, with 3,628 partners and over 81,000 professionals in 462 offices throughout the EMEIA geographical area. Globally EY operates in more than 150 countries and employs 175,000 professionals. Total Audit Fees paid / payable for the whole year 2013 was amounting to RO 14,250.

(H) DETAILS OF NON COMPLIANCE WITH THE PROVISIONS OF CORPORATE GOVERNANCE.

This Corporate Governance Report is prepared in compliance with Code of Corporate Governance issued by Capital Market Authority.

(I) BOARD OF DIRECTORS ACKNOWLEDGES THAT:

The company has all its systems and procedures formally documented and in place. The company has "Internal Regulations" separately compiled as per regulatory requirements. The Board of Directors have reviewed this manual and approved it. The "Internal Regulations" has all the necessary and prescribed procedures. The Board has reviewed these regulations.

The Board of Directors are responsible to ensure that the financial statements have been prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board (IASB), interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) and the requirements of the Commercial Companies Law of the Sultanate of Oman 1974 (as amended) and the rules for disclosure requirements prescribed by the Capital Market Authority.

There are no material events affecting the continuation of Al Jazeera Steel Products Co and its ability to continue its production operations during the next financial year.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF AL JAZEERA STEEL PRODUCTS COMPANY SAOG

Report on the Financial Statements

We have audited the accompanying financial statements of Al Jazeera Steel Products Company SAOG (the "Company"), which comprise the statement of financial position as at 31 December 2013 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended, and a summary of significant accounting policies and other explanatory information.

Board of Directors' Responsibility for the Financial Statements

The Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards and the relevant disclosure requirements of the Commercial Companies Law of 1974, as amended, and the Rules and Guidelines on disclosure issued by the Capital Market Authority, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2013 and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards.

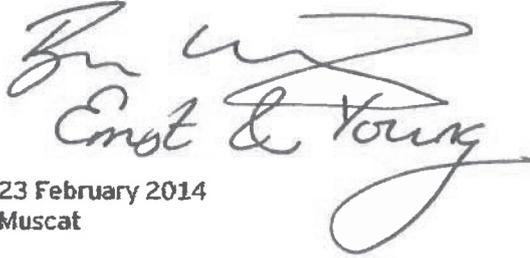

Building a better
working world

**INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF
AL JAZEERA STEEL PRODUCTS COMPANY SAOG (Continued)**

Report on Other Legal and Regulatory Requirements

In our opinion the financial statements comply, in all material respects, with the relevant disclosure requirements of the Commercial Companies Law of 1974, as amended and the Rules and Guidelines on disclosure issued by the Capital Market Authority.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2013

1. Legal status

Al Jazeera Steel Products Company SAOG (the "Company") is an Omani joint stock company registered under the Commercial Companies Law of the Sultanate of Oman. The registered address, principal office and the manufacturing facility is located at P O Box 40, Sohar Industrial Estate, Postal Code 327, and Sultanate of Oman. The Company's shares are listed in the Muscat Securities Market. The principal activities of Company are the manufacture and sale of steel products including associated works.

The company has two plants namely tube mill and merchant bar mill. The commercial operations of the tube mill commenced in May 1999 and the merchant bar mill commenced in October 2009.

2. Summary of significant accounting policies

Basis of preparation

These financial statements are prepared on the historical cost basis.

These financial statements are presented in Rials Omani (RO) since that is the currency in which the majority of the transactions are denominated.

Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards, and applicable requirements of the Commercial Companies Law and the Capital Market Authority (the CMA) of the Sultanate of Oman.

Changes in accounting policy and disclosures

- (a) Standards and amendments effective in 2013 and relevant for the Company's operations:
For the year ended 31 December 2013, the Company has adopted all of the new and revised standards and interpretations issued by the International Accounting Standards Board (IASB) and the International Financial Reporting Interpretations Committee (IFRIC) of the IASB that are relevant to its operations and effective for periods beginning on 1 January 2013.

The adoption of those standards and interpretations has not resulted in changes to the Company's accounting policies and has not affected the amounts reported for the current and prior periods.

- (b) Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company:

The following new standards and amendments have been issued by the International Accounting Standards Board (IASB) but are not yet mandatory for the year ended 31 December 2013:

- IAS 32, Offsetting Financial Assets and Financial Liabilities - Amendments to IAS 32: effective for annual periods commencing 1 January 2014;
- IAS 39, Novation of Derivatives and Continuation of Hedge Accounting -Amendments to IAS 39: effective for annual periods commencing 1 January 2014;
- Investment Entities - (Amendments to IFRS 10, IFRS 12 and IAS 27): effective for annual periods commencing 1 January 2014;
- IFRS 9, Financial Instruments. The Company has not adopted first phase of IFRS 9, which is currently not mandatory.

The adoption of the above standards is not expected to have any significant changes to the company's financial statements.

A summary of significant accounting policies is set out below:

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Expenditure incurred to replace a component of an item of property, plant and equipment that is accounted for separately, including major inspection and overhaul expenditure, is capitalised. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the item of property, plant and equipment and can be measured reliably. All other expenditures are recognised in the profit or loss as an expense when incurred.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG
NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

2. Summary of significant accounting policies (continued)

The cost of the property, plant and equipment is written down to residual value in equal installments over the estimated useful lives of the assets. The estimated useful lives are:

	Years
Buildings	20
Plant and equipment	15 - 20
Tools and spares	4
Motor vehicles	5
Furniture and fixtures	5
Computer and other equipment	3 - 5

Capital work-in-progress is not depreciated until it is transferred into one of the above categories at the time when it is brought into use.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

Where the carrying amount of an asset is greater than its estimated recoverable amount it is written down immediately to its recoverable amount.

Gains or losses on disposals of items of property, plant and equipment are determined as the difference between the sales proceeds and their carrying amounts and are taken into account in determining the operating result for the period.

Impairment of non- financial assets

At each reporting date, the Company reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount and the increase is recognised as income immediately, provided that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised earlier.

Inventories

Inventories, which include goods-in-transit, are valued at the lower of cost and net realisable value. Cost is determined on the weighted average cost basis and consists of the direct cost of materials and, in the case of finished goods and work-in-progress, an appropriate share of labour and direct overheads. Net realisable value is the price at which inventories can be sold in the normal course of business after allowing for the costs of completion and realisation. Provision is made where necessary for obsolete, slow moving and defective items.

Trade and other receivables

Trade receivables are stated at their amortised cost less impairment losses. An allowance for impaired debts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the trade receivable is impaired.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held with banks, other short-term highly liquid investments with original maturities of three months or less from the date of placement and bank overdrafts.

Interest bearing loans and borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG
NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

2. Summary of significant accounting policies (continued)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the amortisation process.

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting year, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

End of service benefits and leave entitlements

End of service benefits are accrued in accordance with the terms of employment of the Company's qualifying employees at the reporting date, having regard to the requirements of the Oman Labour Law, as amended. Employee entitlements to annual leave are recognised when they accrue to employees and an accrual is made for the estimated liability arising as a result of services rendered by employees up to the reporting date. These accruals are included in current liabilities, while that relating to end of service benefits are disclosed as a non-current liability.

Contributions to a defined contribution retirement plan and occupational hazard insurance for Omani employees in accordance with the Omani Social Insurances Law of 1991 are recognised as an expense in the profit or loss as incurred.

Trade and other payables

Liabilities are recognised for amounts to be paid for goods and services received, whether or not billed to the Company.

Impairment and uncollectibility of financial assets

An assessment is made at each reporting date to determine whether there is objective evidence that a specific financial asset may be impaired. If such evidence exists, any impairment loss is recognised in the statement of comprehensive income. Impairment is determined as follows:

- (a) For assets carried at fair value, impairment is the difference between cost and fair value, less any impairment loss previously recognised in the statement of comprehensive income;
- (b) For assets carried at cost, impairment is the difference between carrying value and the present value of future cash flows discounted at the current market rate of return for a similar financial asset;
- (c) For assets carried at amortised cost, impairment is the difference between carrying amount and the present value of future cash flows discounted at the original effective interest rate.

Derecognition of financial assets and financial liabilities

Financial assets:

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised where:

- the rights to receive cash flows from the asset have expired; or
- the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and
- Either (a) the Company has transferred substantially all the risks and rewards of the asset, or
(b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

2. Summary of significant accounting policies (continued)

Financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

Fair values

The fair value of interest bearing items is estimated based on discounted cash flows using interest rates for items with similar terms and risk characteristics.

Leases

Operating lease payments are recognised as an expense in the statement of comprehensive income on a straight line basis over the lease term.

Taxation

Taxation is provided for in accordance with the tax laws and regulations of the Sultanate of Oman.

Current tax

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax

Deferred tax liability is recognised on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the unused tax losses and credits can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred income tax assets and liabilities are offset only when there is a legally enforceable right to set off.

Share capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction from the proceeds.

Dividend on ordinary shares

Dividends on ordinary shares are recognised as a liability and deducted from equity when they are approved by the Company's shareholders.

Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, and sales taxes or duty. The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements. The specific recognition criteria described below must also be met before revenue is recognised :

Sales of goods

Revenue from the sale of goods, net of trade discount is recognised in the statement of comprehensive income when the significant risks and rewards of ownership have been transferred to the buyer. Revenue is not recognised if there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2013

2. Summary of significant accounting policies (continued)

Interest

Interest revenue is recognised as the interest accrues using the effective interest rate method, under which the rate used exactly discounts, estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Interest income and expense

Interest income and expense are accounted on accrual basis.

All interest and other costs incurred in connection with borrowings are expensed as incurred, as part of financing costs and are accounted on an accrual basis, except that the interest expense on borrowings specifically undertaken to finance the construction of qualifying assets are capitalised along with the cost of the asset.

Foreign currency transactions

Functional and presentation currency

Items included in the Company's financial statements are measured using Rials Omani ("RO") which is the currency of the Sultanate of Oman, being the economic environment in which the Company operates (the functional currency). The financial statements are prepared in RO, rounded to the nearest RO.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Director's remuneration

The Company follows the Commercial Companies Law 1974 (as amended), and other latest relevant directives issued by the Capital Market Authority (CMA), in regard to determination of the amount to be paid as Directors' remuneration. Directors' remuneration is charged to the profit or loss account in the year to which they relate.

Segment reporting

A segment is a distinguishable component of the Company that is engaged in providing products or services (business segment) or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

3.1 Financial risk management

Financial instruments carried on the statement of financial position comprise cash and cash equivalents, trade and other receivables, trade and other payables and borrowings.

Financial risk factors

Overview

The Company has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance of the Company. Risk management is carried out by the management under policies approved by the Board of Directors.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG
NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

3.1 Financial risk management (continued)

(i) Credit risk

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The exposure to credit risk at the reporting date was on account of:

	2013	2012
	RO	RO
Trade receivables	24,135,466	25,502,984
Other receivables	1,309,946	1,044,434
Bank balances	2,267,235	1,420,773
	<u>27,712,647</u>	<u>27,968,191</u>

Credit risk on trade receivables is limited to their carrying values as management regularly reviews these balances to assess recoverability and makes provision for balances whose recoverability is in doubt. Credit risk is managed mainly through credit terms to customers backed by confirmed letters of credit. There is no concentration of credit risk with respect to trade receivables as the Company has a large number of customers, internationally dispersed.

As for each potential customer there is no independent rating, the Company's credit committee assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored. Relevant details about the trade receivables are set out in note 8.

(ii) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding from an adequate amount of committed credit facilities. The management maintains flexibility in funding by maintaining availability under committed credit lines.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining years at the reporting date to the contractual maturity date.

	Total	Less than	1 to 2	3 to 5
	RO	1 year	years	years
		RO	RO	RO
At 31 December 2013

Trade and other payables	15,092,951	15,092,951	-	-
	<u>45,544,478</u>	<u>39,340,712</u>	<u>2,067,060</u>	<u>4,136,706</u>

AL JAZEERA STEEL PRODUCTS COMPANY SAOG

NOTES TO THE FINANCIAL STATEMENTS

At 31 December 2013

3.1 Financial risk management (continued)

(iii) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. It is managed by continuous review and adjustments in sales strategy.

Foreign exchange risk

The Company operates internationally, however, the Company is substantially independent of changes in foreign currency rates as its foreign currency dealings are principally in US Dollars (USD) and UAE Dirhams (AED) which are pegged to the Rials Omani.

Commodity price risk

The Company is affected by the volatility of steel prices. Its operating activities require the ongoing purchase and manufacturing and therefore require a continuous supply of steel. Due to the significantly increased volatility of the price of the underlying, the Company's Board of Directors has developed and enacted a risk management strategy regarding commodity price risk and its mitigation.

To manage metal price fluctuation risk, the management cautiously manage the inventory at economical levels. The company is having a robust supply chain with diversified supplier base to achieve competitive prices and reduce the cycle time for procurement. The Company's existing production facility is also flexible in terms of reacting to the customer demands.

Cash flow and fair value interest rate risk

The Company has call deposits, term deposits and long term borrowings. The deposits with banks and borrowings carry interest on commercial terms. The Company is exposed to interest rate risk resultant from its borrowings. The risk is managed by maintaining an appropriate mix between fixed and floating interest rate balances at the start of the financial year, if required.

For every 0.5% change in interest rate, the impact on the statement of comprehensive income will be approximated to RO 95,875 (2012 – RO 142,001) based on the level of borrowing at the reporting date.

3.2 Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the statement of financial position plus net debt.

	2013	2012
	RO	RO
Borrowings (note 13)	21,450,649	29,997,545
Less: cash and cash equivalents (note 9)	<u>(2,275,655)</u>	<u>(1,388,871)</u>
Net debt	19,174,994	28,608,674
Total equity	37,330,462	34,775,796
Total debt and equity	<u>56,505,456</u>	<u>63,384,470</u>
Gearing ratio	<u>34%</u>	<u>45%</u>

3.3 Fair value estimation

The carrying values of financial assets and liabilities with a maturity of less than one year are assumed to approximate their fair values. The fair values of non-current financial liabilities are considered to approximate their carrying amounts.

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

4. Critical accounting estimates and judgments

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the resultant provisions and changes in fair value. Such estimates are necessarily based on assumptions about several factors involving varying, and possibly significant, degrees of judgment and uncertainty and actual results may differ from management's estimates resulting in future changes in estimated liabilities and assets.

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Key sources of estimation uncertainty

Allowance for doubtful debts

An estimate of the collectible amount of trade accounts receivable is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision applied according to the length of time past due, based on historical recovery rates.

At the reporting date, gross trade accounts receivable were RO 24,135,466 (2012: RO 25,502,984), and the provision for doubtful debts was RO 561,055 (2012: RO 664,824). Any difference between the amounts actually collected in future periods and the amounts expected will be recognised in the statement of comprehensive income.

Allowance for slow moving and obsolete inventories

Inventories are held at the lower of cost and net realisable value. When inventories become old or obsolete, an estimate is made of their net realisable value. For individually significant amounts this estimation is performed on an individual basis. Amounts which are not individually significant, but which are old or obsolete, are assessed collectively and a provision applied according to the inventory type and the degree of ageing or obsolescence, based on historical selling prices.

At the reporting date, inventories were RO 20,471,444 (2012: RO 29,789,587) with provisions for old and obsolete inventories of RO 2,198,843 (2012: RO 1,984,328). Any difference between the amounts actually realised in future periods and the amounts expected will be recognised in the statement of comprehensive income.

Useful lives of property, plant and equipment

The Company's management determines the estimated useful lives of its property, plant and equipment for calculating depreciation. This estimate is determined after considering the expected usage of the asset or physical wear and tear. Management reviews the residual value and useful lives annually and future depreciation charge would be adjusted where the management believes the useful lives differ from previous estimates.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG
NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

4. Critical accounting estimates and judgments (continued)
Key sources of estimation uncertainty (continued)

Deferred tax assets

Uncertainties exist with respect to the interpretation of tax regulations and the amount and timing of future taxable income. Given the wide range of business relationships and nature of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The company establishes provisions, based on reasonable estimates, for possible consequences of finalisation of tax assessments of company. The amount of such provisions is based on various factors, such as experience of previous tax assessments and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

5. Segment information

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses relating to transactions with other components of the same entity; whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and for which discrete financial information is available. The accounting policies of the reportable segments are the same as the Company's accounting policies described under note 2.

Information regarding the Company's operating segments is set out below in accordance with IFRS 8 - Operating segments. IFRS 8 requires operating segments to be identified on the basis of internal reports about components of the Company that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

Products and services from which reportable segments derive their revenues

The Company operates in one business segment that of manufacture and sale of steel products. All relevant information relating to this primary segment is disclosed in the statement of financial position, statement of comprehensive income and notes to the financial statements.

The following geographical analysis has been compiled based on the location of the customers of the Company:

	2013		2012	
	Revenue RO	Trade receivables RO	Revenue RO	Trade receivables RO
GCC countries including Oman	76,251,330	20,549,442	81,972,416	22,592,186
North America	10,761,045	3,214,486	15,996,409	2,542,589
Others	1,358,515	371,538	345,793	368,209
	<u>88,370,890</u>	<u>24,135,466</u>	<u>98,314,618</u>	<u>25,502,984</u>

Revenue and trade receivables are allocated based on the country in which the customer is located.

AL JAZEERA STEEL PRODUCTS COMPANY SAOG
NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

8. Trade and other receivables (Continued)

- (a) Trade receivables of the Company are subject to a charge favouring the lenders of borrowings, as disclosed in note 13.
 (b) The amounts are considered by the Company to be due after 120 days from the date of invoice.

The age analysis of trade receivables is as follows:

Age	2013 RO	2012 RO
Less than 120 days	20,956,918	21,395,225
Between 121 - 180 days	2,506,365	3,227,908
Between 181 - 270 days	547,545	740,250
Between 271 - 365 days	3,908	29,414
Between 366 - 730 days	15,480	3,990
More than 730 days	105,250	106,197
	<u>24,135,466</u>	<u>25,502,984</u>

- (c) Other receivables include dumping duties amounting to RO 148,137 (2012: RO 281,872) paid on export to United States of America (US). US Department of Commerce (DOC) imposed antidumping and countervailing duties on the Company's export to US. However the US International Trade Commission on 14 November 2012 has nullified the DOC's decision based on the Company's appeal and the amount so paid is now fully refundable.

9. Bank balances and cash

	2013 RO	2012 RO
Cash at bank	2,267,235	1,420,773
Cash on hand	8,420	13,278
	<u>2,275,655</u>	<u>1,434,051</u>

Bank balance include RO 673,939 (2012: RO 470,713) held in a call account in the United Arab Emirates and RO 949,613 (2012: RO 547,751) in US Dollars to which customers make deposits.

10. Share capital

The share capital comprises 124,897,960 (31 December 2012: 124,897,960) ordinary shares of RO 0.100 (2012: RO 0.100) each fully paid.

10. Share capital (Continued)

The details of shareholders who own 10% or more of the Company's shares are as follows:

Name of the shareholder	2013		2012	
	No. of shares	Holding %	No. of shares	Holding %
Global Buyout Fund LP	63,697,960	51	63,697,960	51

11. Legal reserve

In accordance with the Commercial Companies Law of Oman 1974, as amended, annual appropriations of 10% of the profit are made to this reserve until the accumulated balance of the reserve is equal to one third of the value of the Company's paid-up share capital. This reserve is not available for distribution.

12. Proposed dividend

Dividend is not accounted for until it has been approved at the Annual General Meeting. At the Board of Directors meeting held on 23 February 2014, cash dividend of RO 0.020 per share amounting to RO 2,497,959 was proposed. The financial statements for the year ended 31 December 2013 do not reflect this resolution, which will be accounted for in shareholder's equity as an appropriation of retained earnings during the year ending 31 December 2014.

During the year 2013, a cash dividend of RO 0.016 (2012: RO 0.015) per share totaling RO 1,998,367 (2012: RO 1,873,475) was paid as approved by shareholders in their annual general meeting held on 25th March 2013.

13. Borrowings

	2013 RO	2012 RO
Non-current

21. Taxation

	2013 RO	2012 RO
Statement of comprehensive income		
Current Tax:		
Tax on profit for the year	651,475	-
Adjustment in respect of prior years	298,828	22,185
Deferred Tax:		
Origination and reversal of other temporary differences	(227,719)	67,484
Total tax charge for year	<u>722,584</u>	<u>89,669</u>
Current liability		
Current year	651,475	-
Prior years	298,828	-
Total tax payable for year	<u>950,303</u>	<u>-</u>

- (a) In accordance with Ministerial Decision number 87/99 dated 11 August 1999, the Company was exempt from income tax for a period of five years from the date of the commencement of commercial operations being 15 May 1999. The Ministry of National Economy, through Ministerial Decision No. 89/2004 dated 22 November 2004, granted the Company a further tax exemption for five years which ended on 14 May 2009.
- (b) The Company had declared brought forward taxation losses of RO 866,148 (2012: RO 5,457,914) which have been offset against the current year's taxable profits.
- (c) The reconciliation of the tax on accounting profit at the applicable rate of 12% (2012 - 12%) after the basic exemption of RO 30,000 and the taxation charge in the financial statements is as follows:

	2013 RO	2012 RO

21. Taxation (Continued)

(d) Tax assessments for all the years up to 2008 have been completed and differential tax amounting to RO 22,185 towards non exempt income was paid for the year 2007 and 2008 to the Oman taxation authorities in 2012. The management believes that any taxation for the unassessed years from 2009 to 2012 will not be material to the financial position of the Company as at the reporting date.

(e) The company has made additional tax provision of RO 298,828 relating to prior years. The current period tax charge relates to deferred taxation in respect of the temporary differences. Deferred income taxes are calculated on all temporary differences using a principal tax rate of 12%. The net deferred tax liability and deferred tax charge in the statement of comprehensive income are attributable to the following items:

Deferred taxation	1 January 2013	Released to profit or loss	31 December 2013
	RO	RO	RO
Asset			
Provision	-	(210,000)	(210,000)
Liability			
Accelerated tax depreciation	<u>925,014</u>	<u>(17,719)</u>	<u>(907,295)</u>
	<u>925,014</u>	<u>(227,719)</u>	<u>697,295</u>
		Charged to profit or loss	31 December 2012
	1 January 2012	RO	RO
Asset			
Provision	(19,063)	19,063	-
Liability			
Accelerated tax depreciation	<u>876,593</u>	<u>48,421</u>	<u>925,014</u>
	<u>857,530</u>	<u>67,484</u>	<u>925,014</u>

22. Earnings per share – basic and diluted

Earnings per share is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of ordinary shares in issue during the year.

	2013	2012
	RO	RO
Profit attributable to shareholders (RO)	<u>4,553,033</u>	<u>3,418,137</u>
Weighted average number of shares outstanding	<u>124,897,960</u>	<u>124,897,960</u>
Earnings per share - basic and diluted (RO)	<u>0.036</u>	<u>0.027</u>

For the purpose of calculating diluted earnings per share, the weighted average number of shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares. As there are no dilutive potential shares, the diluted earnings per share is identical to the basic earnings per share.

23. Net assets per share

	2013	2012
	RO	RO
Net assets (RO)	<u>37,330,462</u>	<u>34,775,796</u>
Number of shares at the reporting date	<u>124,897,960</u>	<u>124,897,960</u>
Net assets per share (RO)	<u>0.299</u>	<u>0.278</u>

Net assets per share are calculated by dividing the shareholders' equity at the reporting date by the number of shares outstanding.

NOTES TO THE FINANCIAL STATEMENTS
At 31 December 2013

24. Related party transactions

Related parties comprise the shareholders, directors and business entities in which they have the ability to control or exercise significant influence in financial and operating decisions. The Company has entered into transactions with entities related to the significant shareholders or directors. In the ordinary course of business, such related parties provide goods and render services to the Company. During the year, the following transactions were carried out with related parties:

	2013 RO	2012 RO
Services availed		
Material transportation charges	<u>-</u>	<u>30,355</u>
Compensation of key management personnel		
Basic salaries and allowances	<u>345,735</u>	<u>297,439</u>
Remuneration to directors	42,000	40,500
Directors' sitting fees	<u>9,525</u>	<u>9,725</u>
	<u>397,260</u>	<u>378,019</u>

25. Commitments

(i) Lease commitments

At 31 December 2013, the future minimum lease commitments under the lease agreement in respect of the land, referred to in note 6(a) amounted to RO 1,240,959 (2012 : RO 1,380,005) for the total remaining lease period. Under the terms of the operating lease the future aggregate minimum lease payments are as follows:

	2013 RO	2012 RO
Not later than 1 year	67,046	67,046
Between 2 and 5 years	317,148	292,665
Later than 5 years	<u>856,765</u>	<u>948,294</u>
	<u>1,240,959</u>	<u>1,308,005</u>

(ii) Purchase commitments

At 31 December 2013, the value of outstanding purchase commitments amounted to RO 7,528,383 (2012: RO 8,428,717).

(iii) Capital commitments

At 31 December 2013, the value of outstanding capital commitments amounted to RO 101,811 (2012: RO 97,455).

26. Contingent liabilities

	2013 RO	2012 RO
Bank guarantees	<u>95,943</u>	<u>57,443</u>

The above guarantees were issued in the normal course of business.

27. Comparative information

Comparative figures have been adjusted or reclassified to conform to the presentation adopted for the current year.
